It's just that the iPad's version is an upgrade." - Ken "Weaverslave is simply the best code editing software I have come across in a while. Very easy to use and it has a lot of useful tools to create, edit and fix your HTML code. I strongly recommend this software to all programmers." - Hugo "Weaverslave Portable is a powerful HTML editor for Mac OS X. It has a simple but effective graphical user interface. It provides the functions needed to edit source code efficiently and offers special features to improve its quality." - Caspar "This is a very well thought out software, the ability to view the code in a graphical format is a perfect feature. The only downside is that the size is too large, you cannot fit it on an iPad. But if you are looking for an all-in-one HTML editor, this one fits the bill." - John "I like Weaverslave Portable. It's a good program for people who work with HTML files. I would buy it if the price was a little less." - Tyrone "I love Weaverslave Portable's ability to view your HTML as a graphic. It is an extremely useful feature as it makes it easier to locate and edit the various components of an HTML page. Overall, I have found Weaverslave Portable to be a very useful tool for editing HTML files." - Robert "Weaverslave Portable is a great all-in-one HTML editor. It is easy to use and offers more functions than most other programs"

## What's New In Weaverslave Portable?

worselp is a utility to make folders name from subfolders. Folder name will be a result of a concatenation of subfolder name and timestamp. e.g. "work/2008-11-17" will be a result of timestamp. "work" is the subfolder name, and "2008-11-17" is timestamp. Unlike other tools, worstlp doesn't create "./" level folders. This means that to create a folder "work" with a folder "2008-11-17", you have to create the folder "work" first, and then create "work/2008-11-17". Description: no\_mixer is an audio mixer with effects and visualizer plugin New, more flexible user interface for easy use Screens: Introduction: no\_mixer is an audio mixer with effects and visualizer plugin.
