In 2010, a new API, AcadAcadServer was introduced. This API allows AutoCAD to connect to other AutoCAD related applications. Extensions AutoCAD has numerous extensibility points, including XML, AutoLISP, and VBA. AutoLISP and VBA are the two most common extension mechanisms, with AutoLISP generally used for designing and creating custom functions. In addition, AutoLISP (Lisp) is also the scripting language used in the associated AutoLISP Development Studio or AutoLISP Development Kit. AutoLISP is also the language of the original add-in builder PowerLISP (later PowerBuilder), which was used to design and create AutoCAD and AutoCAD LT add-ins. AutoLISP is an interpreted language. Visual LISP is a combination of visual design features and dynamic programming concepts. Visual LISP can be used for both designing and programming AutoCAD add-ins. VBA is the macro language supported by Windows. Microsoft introduced VBA in Windows 3.0 in 1993. It was included with Word, Excel, PowerPoint, and Access. All the file formats supported by these applications are able to work with Visual Basic for Applications (VBA). Other extensions such as AutoCAD's DXF format, the extension that allows importing and exporting drawing information, has its own extensions such as DXFView for viewing drawings and Microsoft Office MHTML for exporting. Autodesk Exchange Autodesk Exchange, released in December 2013, provides a network-enabled web application for exchanging technical information in a secure, HIPAA compliant environment. An Autodesk Exchange account can be created for free, or if an Autodesk Exchange account is already in use, it can be upgraded to Autodesk Exchange Premium for an annual fee. Autodesk Exchange supports: Saving drawings to both DWG and DXF files. All DWG and DXF file formats supported by Autodesk. Providing a secure collaboration platform for technical professionals. Data exchange by connecting to heterogeneous client applications including Autodesk Architectural Desktop, Autodesk Civil 3D, Autodesk Mechanical Desktop, Autodesk Electrical Desktop, Autodesk Design and Plumbing Desktop, Autodesk Structural Desktop, Autodesk Infrastructure Manager, Autodesk MEP 360, Autodesk Civil Design, Autodesk Land Survey, and Autodesk 5b5f913d15
