In this game you can build your own character and you can equip different weapons and armor to perform combat in different style. Through all the various world in a unique and fun experience. Here is a good part of the review for the game. The combined power of the swords and armor are different. Stronger to the left, and weaker on the right, and as you progress the difficulty of the monsters increase. There are monsters that have a variety of hit points and monsters that have deadly attack points. When playing in this type of world it's more than just to participate. It's like, playing in a puzzle game, and have to collect your weapons to face the enemies. Therefore, as a game that is full of depth, there are various combinations of weapons, armor, and magic that you have to combine in order to survive. Since this game is RPG, there is a characteristic of the battles that is slightly amusing. Once you have a battle that you should not be equal, it will automatically switch to the other side. In this game it occurs once every ten battles, but it is not necessary to level up, what is known as leveling up. As the game progress, the story develops and more details are revealed. When you play this game, you have to keep in mind that it is still ongoing. FOR THOSE WHO ARE INTERESTED IN THE MAP OF THE LAND BETWEEN: The planet is divided into sectors and the sectors are divided into worlds. All the worlds are combined, and are connected between the gaps. Worlds are connected directly to the World Boss. The map is not like a world map where you can move freely. It's not a board game. It is a game that is played for each sector to be done. However, if you use the world map you can move freely at any time. There are monsters, and there are worlds that you can traverse, and will become a passage to the other worlds. Each world, there is the entrance to the world boss. When you pass through the world bosses, you can advance to the next world and there are monsters in various levels. If you get past the monsters, you will receive feedback and will know if there is a world boss waiting there. For those who are interested in purchasing a COIN CELL phone, I highly recommend it.
