The technology has been designed to deliver a complete and immersive matchday experience. We have also introduced a new player interaction tool called the "Slide and Manage" system. This enables players to have even more control over their player. Lastly, we have also created an all new responsive matchday experience that responds to the player's touch to help create more realistic animations and actions. Our new ball physics now deliver increased responsiveness. In addition to a new FIFA Ultimate Team formation, first-time players will also be able to customise their own player appearance options for a more personalised appearance. We've also been busy with our FIFA Street League™ franchise, which launched officially on 4 December in Europe and the Middle East. FIFA Street, FIFA Street 2 and FIFA Street 3 remain some of the most popular football games in the world and we are proud that, more than seven years on, there are still millions of players worldwide who are enjoying the fun and high-octane gameplay of our FIFA Street series of football games. FIFA 22 will be available on PlayStation 4, Xbox One, PC and Nintendo Switch in Europe. In North America, it will be available on PlayStation 4, Xbox One, PC, the Nintendo Switch and, for the first time, the all-new Samsung NX, a compact device offering the full FIFA 22 experience. Mike March, Senior Product Manager at EA SPORTS, said: "For the last few years we have been refining and developing our footballing playground. At the same time, we have introduced some of our most loved features, and it's never been more fun to play with friends or players around the world. "We have also been working to ensure that FIFA 22 delivers an authentic matchday experience – and that's why we've created a new set of technologies to deliver our most dynamic and engaging football gameplay yet." Jack Sibley, Head of Action Sports at EA SPORTS, added: "Our goal at EA SPORTS is to drive and define football gaming. That means delivering high-quality fun and high-octane sports games, year after year. "FIFA 22 is our most ambitious football game ever and we believe it will be a smash hit." The gameplay of FIFA 22 is powered by the "HyperMotion Technology,"

FIFA is more than a video game — it's a living, breathing sports simulation that places real-world teams and players on the pitch, and allows fans to experience the tension, exhilaration and unpredictability of authentic competition. FIFA 20's Gameplay Abilities, AI and Human Performance The physics and controls of passing, shooting and tackling are made from the ground up to feel more realistic. Players run with more speed and control, recover from challenges more quickly and balance more effectively. The game's improved passing and acceleration also makes great situational tic tac toe a thing of the past. A clearer, more intuitive visual feedback system makes everything feel simpler, too. Coach your team to victory by assigning tactics and controlling your line-up to improve performance. Use your training sessions to build a more accurate squad. Choose the best preparation for your next competitive matches. AI gets smarter as you play. Your opponents will adapt their tactics and strategy as you play. But they'll adapt to your tactics and strategy as you play too. Brilliantly crafted gameplay is the cornerstone of any great FIFA game. FIFA 20 continues to change and improve its gameplay features to mirror what you see on the pitch. The game gives you the power to take charge of your player's growth and development, dictating where and when to use Player Ratings. Players' positions are also more flexible, allowing you to play any formation you like. This also means that FIFA 20 offers more variety in roles and playing styles, meaning you'll see less standard formations and more tactical styles. The game is also more diverse with more roles to play — no longer are players with limited playing styles the norm. There's also more emphasis on smart decision making, more use of ID switching to earn more from the opposition. Winning challenges is also important. A deeper Challenge History Over 20 official leagues and tournaments, including the UEFA Champions League, UEFA Europa League, UEFA Super Cup, UEFA Youth League and Club World Cup are represented, giving players the chance to pit themselves against the best sides in the world. Challenges allow you to complete tasks and earn rewards to progress your team's next challenge. It's never been more important to win challenges in FIFA 20, given the overhauled Pressure Points system. Pressure Points: The Gameplay Experience The bc9d6d6daa

What's new in Fifa 22:

- **New Pace of the Game: The next generation of presentation creates moments every time you play, giving you a clear overview of every dynamic on the pitch, including increased player fatigue, reactions to shots, and reaction times.**
- **Presentation: Reveal more visual details with more information through detailed reflections, animated density fields, and augmented videos.**
- **Depth: Introducing a new semi-cinematic shot capture feature that allows you to key in shots and pass the ball to the spot for a shot.**
- **Fluid Spatial Awareness: This feature creates virtual bodies in the space and times of the player for a more immersive, varied, and realistic experience for passing, dribbling, and shooting.**
- **FIFA 22 introduces the most exhilarating Feeling mode in history. Bring out your inner child as you experience the same motion as the players on the pitch on game modes, including improved rally abilities, more interactive Crowds, face-offs, and free kicks.**
- **The Zone-locked Dribbling Drives you to your next move. When your dribble is about to end, you'll see an icon appear on the ground.**
- **Match Day: Quickly select goals, offsides, cards, and much more from your strategy tool while you're watching a match on Sunday.**
- **FIFA Training Mode: Ease yourself into the game with quick matches and free kicks. Show your friends how you'd score that goal!**
- **Player Power: Balance your defense with new Pressure Cards. Use this new power for sprinting past the player or to slash away from contact.**
- **Elite Tactics: Save time in team and free-kick setup by drawing and dropping a formation directly from the tactics screen.**
- **Player Emotions: Better express your emotion by giving and receiving *what-ifs*, reacting to the emotions of teammates, and facial gestures that are now a part of the presentation.**
- **FIFA Touch: Choose a new Foul tool that enhances the presentation of fouls, provide more control over the throw, and allow you to bounce a player out of bounds with a throw.**
- **New Scouting System: Test your defensive setup, midfield alignment**
